BCTOBA Press Release
By Mike Heads

Delay Due to Weather

Due to the extreme cold over the past few days in the Greater Vancouver area, the track will not open for training until **Tuesday, February 11th**. The track is currently frozen and obviously unfit for training, but the weather is scheduled to warm up, which will allow the track maintenance crew to get the track ready for Tuesday.

A note from Hastings Entertainment Inc. to trainers and their staff: the tunnel alongside the paddock, which connects the backstretch to the front side, will close every night at 2 a.m. and reopen at 9:15 a.m. Anyone needing access to the barn area between those times will only be able to enter via the East Gate.
